The Company

Saint-Gobain Pipe Systems PLC is one of the UK's leading distributors of tube, valves and fittings to the Building Services, Civil Engineering and Industrial markets.

Operating from stockholding sites throughout the UK, Saint-Gobain Pipe Systems incorporate the leading brand names of Ashworth Frazer and Drainage Systems.

First class service combined with a commitment to ensuring your needs and requirements are paramount is a convincing reason to complete the perfect package with the Saint-Gobain Pipe Systems group of companies.

Our Industry team operates throughout the UK and has extensive knowledge together with a comprehensive stock of products for:

- Pressure Plastics
- Process Valves
- Quality Tube

Items shown in this brochure are a representative sample of products available.

For further information on our full range of products and services, technical specification or prices, please contact your local business.

Pressure Plastics

The **Saint-Gobain Pipe Systems** group of companies offer a comprehensive range of Process Plastics for a wide range of applications. Through constant investment in the latest technology, **SGPS** meet the high demands of longstanding and new customers whilst also meeting European Standards required for these types of systems.

We offer an extensive range of pipes, valves and fittings in various materials suited to the demands of all applications including chemical and pharmaceutical industries, environmental technology, the food industry and high purity requirements.

As a result of our constant investment and research in this sector of the marketplace we can offer pipes, valves and fittings in the following materials:

- PVC-U
- ABS
- PVDF
- CPVC
- Polypropylene

In addition to:

- Actuated Valves
- Flow Monitoring Equipment

Process Valves

Ashworth Frazer has long been recognised as a competitive, reliable and efficient supplier of manual and actuated valves to an extremely diverse spectrum of industry. As a result of our continued investment and striving for excellence in this highly specialised sector of our business, we have expanded our team and facilities to become one of the largest process valve stocking and distribution companies in the UK. We carry extensive stocks of the following products:

- Jamesbury Ball Valves
- Cast & Forged Steel Gate, Globe & Check Valves
- Gestra Equipment
- Actuators
- Oasys Diaphragm Valves
- Butterfly Valves
- Saunders Valves

Our team of specialists provide an ex stock, overnight delivery service to any customer, regardless of geographical location, anywhere in the United Kingdom. We can also offer an in house actuation/instrumentation, assembly and test service which is monitored in accordance with our ISO9000 quality plan.

Customer service is paramount and to this end we have a regionally focused, highly skilled sales team. Both our internal and external sales personnel are process valve specialists with many years experience and training in all aspects of process valve specification.

A wide range of specialist valves can be supplied to suit a multitude of extreme applications such as:

- Cryogenic Service
- High Temperature Service
- Abrasive Media Service
- Slurry Isolation
- High Cycling Duties
- Vacuum Applications
- Degreased Products for Oxygen Service
- NACE Specification Products for Sour Gas Service
- High Purity Valves for Pharmaceutical Applications

Quality Tube

In the fast moving energy industries markets, today's trading environment has never been more competitive. Sustained success is dependant upon increased production along with improved efficiency and ongoing cost reductions, all vital ingredients to gain a competitive edge in the market place.

AF Pipetrack is a specialist, market focused team who are well versed in supplying quality tube conveyance pipes and a full range of associated ancillaries. Our customers and markets are diverse, as are their needs, which can range from a "just in time" delivery for one length of pipe or a fitting, to major projects where large volume business is involved.

The **AF Pipetrack** team has extensive knowledge and experience in the supply of Quality Tube to all aspects of industry. Our competence in the area covers both the customer and manufacturing ends of the business, including trading agreements with many of the major manufacturers.

We offer, ex stock, an extensive range of Quality Tube materials for fast delivery to any location in the UK. Our specialist team is always available to offer help and support to customers on any number of projects varying from engineering solutions to consultation. The extensive tube range includes:

- API/A106 HFS Pipe
- API 5L HFI/SAW Pipe
- BS3799, 3000, 6000 PSI Fittings
- BS1640/ANSI B16.9 Weld Fittings
- BS1560/ANSI B16.5 Flanges
- ASTM A350 LF2 Flanges
- Stainless Steel Tube, Fittings & Flanges
- Hygienic Tube & Fittings
- WPL6 Low Temperature Fittings
